# South East Asia Region

- *In 2009 GNOME.Asia Summit has been held in Vietnam. I think next year is appropriate time for GNOME.Asia Summit going back to SEA.*
- *It's possible FLOSS communities in SEA countries collaborate to organize GNOME Asia summit.*
- *It will encourage and attract more people in SEA to use GNOME and contribute to the GNOME project.*
- *It will makes GNOME.Asia stronger.*

*I wish We will see each other again on  
GNOME.Asia Summit 2015 in Indonesia.*
