Ho Chi Minh City, 9 Oct. 2009

Dear Sir or Madame,

I am writing to invite you to the GNOME.Asia Summit 2009 in Ho Chi Minh City at Quang Trung Software City from Nov. 20-22 and to inform you about our call for speakers and participants.

The summit is an opportunity get in touch with local and global enterprises. We offer numerous talks, presentations and workshops to learn about new technologies in the mobile and desktop sector and to meet enterprises, potential customers, highly qualified students and developers.

The GNOME.Asia Summit is an annual event taking place in a different city in Asia each year. During the current preparation period we are gaining a lot of attention in Vietnam and throughout the region. Besides global enterprises that have already confirmed their support of the summit, including SUN Microsystems, IBM Vietnam, Google and Red Hat, numerous local participants and companies are signing up for the event.

I would be very honoured to see the participation of your organization at the summit. I would also like to invite you and your staff to present Open Source technologies being used and/or developed in your company at the event. This is an opportunity to showcase your developments and services to local and international participants.

I look forward to your response and participation. Please do not hesitate to contact me or Ms. Hong Phuc Dang at any time, if you require further information.

Sincerely,

Mario Behling
Chair GNOME.Asia Summit Vietnam 2009
