Contribute to Gnome

By Manish Yadav

Engineer

Techtickle

GNOME

Talk Abstract

- Contributing as a developer

- Contributing as a non developer

- Other ways to contribute

  - Spreading Gnome at Local Events
  - Organising Local Gnome Events
  - Participating in Gnome Events

Picking up the work

Determine

Your Interest

As a Developer

Task	Status	Priority	Target Release	Assignee
Core Improvements				
Incremental encoding conversion on load (using GConverter currently developed in gio)	done	Normal	2.30/3.0	No One
Remove the local saver and use the gio one instead	done	Normal	2.30	No One
Use new gio metadata system	done	Normal	2.30	Nacho
GSettings migration	done	Normal	2.30/3.0	Nacho
Move to Mallard help format	in progress	Normal	2.30/3.0	Jim Campbell (code here)
Multi View support and classes refactoring	in progress	Normal	3.0	Nacho
D-Bus interface and reworked single-instance (using gdbus once merged in glib)	done	Normal	3.0	JesseVanDenKieboom
GTK 3.0	done	Normal	3.0	No One
GTK Introspection for bindings	done	Normal	3.0	No One
Consider using an external plugin library (nud's libpeas)	done	Normal	3.0	No One
Experiment some UI rework (move toolbar inside the tab, a la Chrome)	todo	Normal	3.0	No One
Get rid of uri and use GFile instead	done	Low	3.0	No One

As a Non Developer

Things you can do

Bug Reporting

Be specific about the problem

Bug should be reproducible

Cross check the severity and OS before filing

Write good bug summary and description
